Submit your expressions of interest to:  
[NDISenquiries@helpenterprises.com.au](mailto:NDISenquiries@helpenterprises.com.au)

We don't just care *for* people with disability, we care *about* them.

# WHAT TO EXPECT AT HELP SUPPORTED EMPLOYMENT

## OUR SUPPORTED ENVIRONMENT

We currently have around 350 supported employees working across different areas of our social enterprise organisation.

All sites are inclusive, modern, well-equipped and great places to work. HELP also has an experienced and qualified *Employee Support Team* on-site to help you upskill and aspire to personal career goals. The sheer variety of duties at HELP is an essential factor in ensuring our employees feel happy and valued in our workplace.

## ABOUT HELP

At the very heart of what we do, is our social enterprise businesses that create meaningful employment for people with disability.

Our team of supported employees contribute to our success in many commercial industries. This enables HELP to continue reinvesting in our disability services and infrastructure, along with creating more local jobs.

## OUR DISABILITY CARE

When you work at HELP, you get access to all of our additional services that may support your whole-of-life needs:

- Every supported employee is able to learn and plan for the NDIS, with our dedicated team ensuring you feel prepared and confident for this change.
- HELP also discusses what you might be eligible for and how we can further assist.
- Our support extends to providing you with community connections, independent living skills, accommodation, recreational and other social supports (depending on funding eligibility).
